Emerging issues in communication systems Sessions

Tuesday, May 16, 1:30-3:00 pm Session TCO4: **Selected Topics in Communications and Applications** **Room: Centennial C4** Session Chairs: **Won Jang**			
Time	Paper ID	Title	Authors
1:30 PM	86	***A Spectrum Sensing Scheme with Dynamic Sensing Period Adjustment for Femtocells in LTE systems***	Zuo, Xuzhou
1:45	66	***A survey of Indoor Visible light communication power distribution and Color shift keying Transmission***	Rana Shaaban, Saleh Faruque
2:00	75	***On using Biocomposite Filaments to Additively Manufacture Substrates for Microstrip Transmission Lines***	Muhammad Qureshi, Sayan Roy, Sayeed Sajal, Chad Ulven, Benjamin Braaten
2:15	76	***A Study of Microstrip Transmission Lines on Substrates Created using Additive Manufacturing and Flexible or Semi-rigid Filaments***	Sayan Roy, Muhammad Qureshi, Sajid Asif, Sayeed Sajal, Benjamin Braaten
2:	123	***Modeling Molecular Channel Using Queueing Theory Approach***	Vahraz Honary, Tadeusz. A. Wysocki, Beata. J. Wysocki
