

May, 2017

WELCOME to the IEEE 2017 International Conference on Electro Information Technology (eIT2017) hosted by University of Nebraska-Lincoln. We are happy to return to Lincoln after 12 years! This is IEEE R4's 17<sup>th</sup> eIT Conference. We received more than 200 technical paper submissions, more than 100 papers were accepted after reviews by experts in electro technology IEEE specialization areas. I want to take this opportunity to thank UNL, IEEE Nebraska Section and members of the organizing committee who have worked very hard to put together a superb program. We are also happy to announce that eIT 2018 Conference will be hosted by Oakland University in Rochester, MI in collaboration with Southeast Michigan Section. I want express my appreciation to IEEE R4 eIT Conferences Administrator Mr. Jim Riess for his support as well as to thank Mr. Bernie Sander, IEEE R4 Director. We hope you have opportunity to network with your IEEE colleagues

and interact with authors, academicians and industry, government information technology professionals. We also welcome any comments/feedback you have for continuous quality improvement of our technical and professional programs.

Sincerely,

S. Hossein Mousavinezhad, Ph.D., IEEE SM, ASEE FELLOW  
Founding General Chair of IEEE International Conferences on Electro Information Technology
