**Zoom Participant Spotlight Video**

A recent update to Zoom added a multiple participant spotlight feature you may find helpful for presentations in your classes, particularly for team presentations. As the host, you are able to identify up to nine participants as the active speakers. Other participants will only be able to see these speakers.

**Prerequisites**

- Zoom client 5.2.2
- Zoom Gallery View
- Video of each spotlighted participant must be enabled

**To Use Spotlight Video**

1. At the top of your screen, hover over the video of the participant you want to spotlight and click the three dots.
2. From the menu select **Spotlight for Everyone**

3. To spotlight additional participants, repeat step 1 and click **Add Spotlight**.

**To cancel the spotlight**

Click **Remove Spotlight** in the upper-left corner of the participant's video window
