MECHANICAL ENGINEERING COLLEGE REQUIREMENTS

- Students may repeat a maximum of three engineering courses
- Students may take any one engineering course a maximum of two times
- Pass/No Pass is only an option for up to 12 credits of ACE courses in the humanities and social sciences. Pass/No Pass is not an option for other required courses or technical electives
- Students can be reviewed for professional admission twice within one department. If they do not receive professional admission after the second review, they can change their major. If they stay in the College of Engineering they must meet the professional admission criteria of their new major after one review or they must change their major outside of the college.
- Must fulfill the requirements of the catalog year of admission, can change to a subsequent catalog year in consultation with an advisor
- 30 of the last 36 degree hours must be registered for and completed at UNL or UNO
- College probation
 - Students with a cumulative GPA of less than 2.4 will be placed on college probation
 - Students move back to good academic standing when their cumulative GPA is 2.4 or higher
 - Students will be dismissed from the College of Engineering after two sequential semesters on college probation
 - Students cannot graduate from the College of Engineering while on college probation

DEPARTMENT REQUIREMENTS

- PHYS 222 General Physics Lab II (1 cr) may substitute for PHYS 221 General Physics Lab I
- Choose one ACE elective from each of the four ACE Student Learning Outcomes (SLO) 5, 6, 7, or 9.
- Written communication - JGEN 200 can be substituted for ENGL 150 & ENGL 151
- The capstone design sequence must be taken in the order shown in the curriculum and should be taken in the last two semesters of the program (MECH 446 and 447).
- Design and technical electives must be chosen from a list of approved 400-level mechanical engineering elective courses provided by the department every semester.
- Senior electives may be either another mechanical engineering technical or design elective, or, with prior approval from your advisor, a 300-level or higher engineering, science, or math course.
- Professional admission - mechanical engineering students will be reviewed for professional admission upon completion of MECH 223 and 43 credit hours (and 12 UNL credit hours for transfer students). To be granted professional admission, a student must:
 - Earn a major GPA of 2.7 or higher at time of review
 - Have no more than 4 withdraws on their record
 - Have no more than 3 repeated courses
 - One must earn professional admission after two reviews or change their major. The second review will occur in the subsequent semester of first review.
