### Undergraduate Advising Form • MECHANICAL ENGINEERING (Lincoln)

**CATALOG YEAR 2023-2024**

This form is meant as a planning tool only. Please meet with your advisor each term.

MECHANICAL ENGINEERING

COLLEGE REQUIREMENTS

- Students may repeat a maximum of three engineering courses.
- Students may take any one engineering course a maximum of two times.
- Pass/No Pass is only an option for up to 12 credits of ACE courses 5, 6, 7, and 9. Pass/No Pass is not an option for other required courses or Engineering electives.
- Students can be reviewed for professional admission twice within one department. If they do not receive professional admission after the second review, they can change their major. If they stay in the College of Engineering they must meet the professional admission criteria of their new major after one review or they must change their major outside of the college.
- Must fulfill the requirements of the catalog year of admission, can change to a subsequent catalog year in consultation with an advisor.
- 30 of the last 36 degree hours must be registered for and completed at UNL or UNO.
- College probation
  - Students with a cumulative GPA of less than 2.4 will be placed on college probation
  - Students move back to good academic standing when their cumulative GPA is 2.4 or higher
  - Students will be dismissed from the College of Engineering after two sequential semesters on college probation
  - Students cannot graduate from the College of Engineering while on college probation

DEPARTMENT REQUIREMENTS

- Grade of ‘C’ or better required for the following classes: MATH 106, MATH 107, MATH 208, CHEM 109A/L, PHYS 211, and MECH 223.
- PHYS 222 General Physics Lab II (1 cr) may substitute for PHYS 221 General Physics Lab I.
- Choose one ACE elective from each of the four ACE Student Learning Outcomes 5, 6, 7, and 9.
- Choose one from the following ACE 1 electives: JGEN 120, JGEN 300, or ENGL 151.
- ENGR 200 is recommended for ACE 6 or ACE 9 credit.
- The capstone design sequence must be taken in the order shown in the curriculum and should be taken in the last full academic year (fall-spring) of the program (i.e. MECH 446 in the fall & MECH 447 in the spring).
- Design and technical electives must be chosen from a list of approved 400-level mechanical engineering elective courses provided by the department every semester.
- Senior electives may be either another mechanical engineering technical elective, another mechanical engineering design elective, or, with prior written approval from your advisor, a 300 or higher level engineering, science, or math course.
- Students may choose to complete either MECH 300 or 343 in the sixth semester. If both courses are taken, one may count as the senior elective.
  - MECH 343 Prerequisites:
    - MECH 325; MECH 342 or parallel; MATL 360; MECH 321 or parallel.
  - MECH 300 Prerequisites:
    - MECH 200 and CSCE 155N
- Professional admission – mechanical engineering students will be reviewed for professional admission upon completion of MECH 223 and 43 credit hours (and 12 UNL credit hours for transfer students). To be granted professional admission, a student must:
  - Earn a major GPA of 2.7 or higher at time of review
  - Have no more than 4 withdraws on their record
  - Have no more than 3 repeated courses
  - One must earn professional admission after two reviews or change their major. The second review will occur in the subsequent semester of first review
