### **Other Service Accomplishments**

1. I engaged with many outreach activities over the last 4 years that include: hosting 12 high school students from Lyons Decatur High School (Lincoln, NE) in January 2024 (made lab tours, showed basic quantum experiments); gave a presentation on diamond quantum sensing to high school students through NCMN Young Nebraska Scientists in the summer of 2022.
2. I organized the [2024 Nebraska Research and Innovation Conference -Diamond Quantum Sensing: Challenges and Opportunities-](#) that took place on Thursday, March 14, 2024 in Lincoln, NE. 110 person attended he workshop from Iowa, Nebraska, and Kansas.

3. I helped in the NCMN/NNF 7-Years review. I gave a presentation on my research and how important NMCN facilities are important to my group. I also participated in the discussion with UNL Grande Challenges team with external reviewers.
4. I gave a plenary talk on quantum sensing aspects at UNL's Grand Challenges "Quantum Science and Engineering" meeting on October 19-20, 2021.
5. I was part of the group directed by Christian Binek and David Sellmyer to draft the next 5-year grand challenges of UNL in the Quantum Science and Engineering along the N2025 vision. Over the course of 6 months, I participated and hosted online sessions to choose the urgent challenges of UNL to make it recognized nationally and internationally in quantum technologies. We were fortunate that we got selected, drafted with help of some department chairs (e.g., Jeffery Shield), and submitted a 3-page document to ORED (Nathan Meier).
6. I chaired sessions at the 2023 APS March Meeting, March 5 –10, 2023, Las Vegas, NV.
7. I am the vice-session-chair of the [2024 International Conference on Magnetism \(ICM\)](#), Dates: 30 June 2024 – 5 July 2024, Geographic Location Bologna, Italy. I reviewed 14 abstracts and selected invited, contributed, and poster presentations.
8. I reviewed graduate applicants for Materials Engineering (MEAM) since 2021.
9. 10/2023. I helped MME during ABET 2023 MME department evaluation: Met with ABET evaluator to discuss the MATL-260/360 class; supervised the TAs to adjust/clean up the labs, etc.
10. I reviewed many senior design projects at MME department over the last five-years.

### **Professional Development**

1. 1/1/2020-present: I was selected by ORED as a fellow for the CAREER Club (worth \$10,000). I have attended all meetings with experts in proposal writing, NSF program managers, etc. to write a competitive CAREER proposal.
2. 10/1/2019: 5/31/2020: I was selected by UNL's Office of Research and Development (ORED) to participate for 2019/2020 Research Development Fellows Program (RDFF). I have attended all the meetings and selected to go to Washington DC and meet with NSF program managers. COVID-19 affected the travel and will reschedule it to another date.
